**•Kids Earth Car**

Our old and battered Kids Earth Car which has transported us through far and rugged terrain. It has also delivered goods for 12 long years to affected areas of the Great Earthquake of Niigata, Great Earthquake of Eastern Japan, and art workshop locations. Today, the Kids Earth Car is on its homestretch, however we will continue to use it until the wheels literally fall off. However, we are requesting donations and support in the amount of ¥300,000 to purchase a new Kids Earth vehicle. The Kids Earth Car is critical and essential for Kids Earth Fund to continue its charitable activities such as the art workshops that are held 3 times a month at youth hospitals and in Tohoku. The Kids Earth Car is also a vital tool for us to deliver goods to the affected areas after the big earthquake. Please refer us to any corporate sponsors that are willing to support our cause. Many thanks for your continued kindness and warm efforts.

## KIDS EARTH HOME Project

17 art workshops held this year in the affected areas of Tohoku

This year in 2012, 17 art workshops were held at the Tohoku Kids Earth Home in the affected areas of North Eastern Japan. This year we were able to become further established in the local areas, while also holding art workshop events with the support of the Watari City, Miyagi Prefecture educational institutions and facilities. Moreover, corporations such as Mitsui Sumitomo Bank and Krafts Foods Japan visited our location on-site and volunteered their time for us. Also sponsoring companies like Askul and Calbee have recently been reporting the Watari City, Miyagi Prefecture and Kids Earth Fund activities. Artworks and messages from the children of Watari City have been publicized nationwide by various corporate sponsors encouraging the children's strong confidence.

### Launching the "Rebuilding of the Schools of Vietnam" Project

The theme of the Vietnamese children's painting was their dream. What they painted was a new school. The reason was because the Kids Earth Home and school that we first built was torn down and turned into a senior citizen's home after the 10th year. Right now, the children are studying at a temporary school facility and by next year a new school must be built to avoid having the children displaced from their current school. This time, we are planning to purchase an apartment building with the land for ¥13,000,000 so that there is no worry of being relocated. The apartment building will turn into a school and a dormitory for the orphans. So far, ¥5,600,000 is being donated by a British corporate sponsor and a Vietnamese individual residing in New York. We still need ¥7,400,000 and we would greatly appreciate your kind support and donations.
